Kutsu koulutukseen

The Finnish - Swedish ERCP basic course 2019 "Finnkampen"

The Finnish – Swedish basic ERCP course takes place 20-22 March 2019 in Tampere, Finland. The course is organized by Tampere University Hospital and Karolinska University Hospital. The course consists of practical exercises with ERCP instruments and models, lectures and clinical patient cases.

We invite doctors in the beginning of their ERCP training (less than 150 ERCPs done) as well as ERCP nurses to join. From each hospital the doctor and nurse work as a pair during the training, and can thus easily "take home" what was learned during the course. The course is interactive, practical and informal with plenty of hands-on training. The program and details are attached.

Welcome, välkommen, tervetuloa!

- Time** 20-22 March 2019,
- Place** Taitokeskus (Tampere Centre for Skills Training and Simulation), Tampere University, Arvo Building, Arvo Ylpön katu 34, Tampere (located in the Tampere University Hospital campus area)
